

## Conditions

### AKTIV KLASIK 24 (C01d, C02d, C03d)

A single-tariff product suitable for customers using electricity for usual purposes.

### AKTIV AKU 8 (C25d, C26d)

A double-tariff suitable for customers with storage heaters. The tariff is available only for customers who have an electricity storage heater for heating or water heating. The customer has to ensure that the storage heater is technically disabled at the times of the high tariff.

### AKTIV E MOBILITA (C27d)

A double-tariff product for customers who own or use an electric car and are able to provide appropriate documents proving their ownership title or right to use the electric car.

### AKTIV KOMBI 16 (C35d)

A double-tariff product for customers using hybrid heating systems. Hybrid electrical heating appliances have to be properly installed at the customer's point of consumption. The customer has to ensure that the storage part of the appliance is technically disabled at the times of the high tariff.

### AKTIV PŘÍMOTOP 20 (C45d)

A double-tariff product for customers using electric heaters. The tariff is available only for customers who have electricity heaters installed for the heating of their premises. The customer has to ensure that the electric heaters are technically disabled at the times of the high tariff.

### AKTIV TČ 22 (C55d, C56d)

A double-tariff product for heating with a heat pump. The customer has to provide appropriate documents proving that a heat-pump-based system is installed and used and that the performance of the heat pump is appropriate with respect to the heat losses of the respective premises. The customer has to ensure that the electric heating appliances are technically disabled at the times of the high tariff.

### AKTIV NEMĚŘENÉ ODBĚRY (C60d)

The price for distribution is set either in the amount of 22,59 CZK / month for every (even incomplete) 10 W of installed capacity or to a permanent price 22,59 CZK for supply point/month. The tariff C61d was changed from 1. 1. 2017 on C60d.

### AKTIV VO (C62d)

A single-tariff for lighting public areas.

All prices are shown without VAT. The price of electricity supply excludes electricity tax; as on the day this price list is published, the electricity tax rate is 28,30 CZK/MWh.

**Notes:** • <sup>1)</sup> Products may be combined with the distribution tariffs in the respective columns only. • <sup>2)</sup> In accordance with Energy Regulatory Office price decision No. 8/2016 (applicable for the electricity distribution network operated by PREdistribuce, a.s.). • <sup>3)</sup> The maximum amount of the renewable energy surcharge per consumption point in an invoicing period is calculated as follows: 495 CZK/MWh multiplied by the total consumption of electricity from the distribution network. The renewable energy surcharge and the price of system services and market operator services is determined by Energy Regulatory Office decision No. 7/2016 and 10/2016; the electricity tax rate is determined by Act No. 261/2007 Sb. Network charges, the renewable energy surcharge and the price of system services and market operator services are determined by the price decision of the Energy Regulatory Office and cannot be influenced by PRE in any way.
