

Conditions

PRE PROUD KOMFORT KLASIK 24 (D01d, D02d)

A single-tariff product suitable for households using electricity for usual purposes.

PRE PROUD KOMFORT AKU 8 (D25d, D26d)

A double-tariff product suitable for households using storage heaters. The tariff is available only for customers who have an electricity storage heater for heating or water heating. The customer has to ensure that the storage heater is technically disabled at the times of the high tariff.

PRE PROUD KOMFORT E MOBILITA (D27d)

A double-tariff product for customers who own or use an electric car and are able to provide appropriate documents proving their ownership title or right to use the electric car.

PRE PROUD KOMFORT KOMBI 16 (D35d)

A double-tariff product for households with hybrid heating systems. Hybrid electrical heating appliances have to be properly installed at the customer's point of consumption. The customer has to ensure that the storage part of the appliance is technically disabled at the times of the high tariff. The granting of this tariff was possible only until 31st March 2016.*

PRE PROUD KOMFORT PŘIMOTOP 20 (D45d)

A double-tariff product for households using electric heaters. The tariff is available only for customers who have electricity heaters installed for the heating of their premises. The customer has to ensure that the electric heaters are technically disabled at the times of the high tariff. The granting of this tariff was possible only until 31st March 2016.*

PRE PROUD KOMFORT TČ 22 (D56d)

A double-tariff for heating with a heat pump. The customer has to provide appropriate documents proving that a heat-pump-based system is installed and used and that the performance of the heat pump is appropriate with respect to the heat losses of the respective premises. The customer has to ensure that the electric heating appliances are technically disabled at the times of the high tariff. The granting of the D55d tariff was possible only until 31st March 2005; the granting of the D56d tariff was possible only until 31st March 2016.* The tariff D55d was changed from 1. 1. 2017 on D56d.

PRE PROUD KOMFORT TOPENÍ 20 (D57d)

A double-tariff product for customers who have properly installed and use electric heaters, hybrid electric heating appliances or a heat-pump-based heating system in their premises. The times when the low tariff applies (max. 20 hours per day) are determined by the relevant distribution network operator. The customer has to ensure that the electric heating appliances are technically disabled at the times of the high tariff except for the driving mechanism of the heat pump compressor. This tariff may be granted on or after 1st April 2016.*

PRE PROUD KOMFORT VÍKEND 24 (D61d)

A double-tariff product suitable for premises that are used only at the weekends. The low tariff applies all year long from Friday noon to Sunday 10 pm.

* Granting the tariff means concluding a Distribution Services Contract or a Supply Contract for Electricity with this tariff. Customers who were granted the tariff prior to or on 31st March 2016 may keep the tariff.

Prices printed in bold are exclusive of VAT, prices in brackets are inclusive of VAT. Prices inclusive of VAT are only approximate, as they have been calculated on the basis of prices exclusive of VAT and rounded up/down. The price of electricity supply excludes electricity tax; as on the day this price list is published, the electricity tax rate is 28,30 CZK/MWh.

Notes: • ¹⁾ Products may be combined with the distribution tariffs in the respective columns only. • ²⁾ In accordance with Energy Regulatory Office price decision No. 8/2016 (applicable for the electricity distribution network operated by PREdistribuce, a.s.). • ³⁾ The maximum amount of the renewable energy surcharge per consumption point in an invoicing period is calculated as follows: 495 CZK/MWh multiplied by the total consumption of electricity from the distribution network. The renewable energy surcharge and the price of system services and market operator services is determined by Energy Regulatory Office decision No. 7/2016 and 10/2016; the electricity tax rate is determined by Act No. 261/2007 Sb. Network charges, the renewable energy surcharge and the price of system services and market operator services are determined by the price decision of the Energy Regulatory Office and cannot be influenced by PRE in any way.
