The prices in bold exclude VAT, the prices in brackets include VAT. For households there is no upper consumption limit in the highest category (63 000 kWh/year to 630 000 kWh/year). Prices inclusive of VAT are only approximate, as they have been calculated on the basis of prices exclusive of VAT and rounded up/down. The prices exclude natural gas tax (environmental tax).
m^3 = cubic metre, kWh = kilowatt hour (1 kWh = 0,001 MWh). The approximate conversion 1 m^3 = 10,55 kWh is applied to convert the volume of consumed natural gas from m^3 to kWh.
Notes:* This means the converted annual consumption determined by the distributor in accordance with relevant legislation. ** The fixed price for gas distribution includes a fixed fee for the market operator's activities equalling to 2,44 CZK/MWh (fixed clearing price of 1,10 CZK/MWh and a special fee of 1,34 CZK/MWh, as determined by a government regulation, for the operations of the Energy Regulatory Office pursuant to Section 17d of Act No. 458/2000 Sb., as amended).
